MOHAMED FARIS

Software Engineer

Trincomalee, Sri Lanka | fr.faris2001@gmail.com | +94 75 596 0594 | LinkedIn: Mohamed Faris

SUMMARY

Software Engineer with hands-on experience in full-stack web, backend, and mobile application development. Proven track record at Hashnate engineering production-grade solutions across enterprise ERP, contract lifecycle management, educational platforms, and mobile apps using FastAPI, Python, Flutter, PHP, and MySQL. Adept at transforming complex Figma designs into responsive UI, architecting robust backend workflows, and building cross-platform digital experiences.

TECHNICAL SKILLS

Languages:	Python, Dart, PHP, Java, JavaScript, HTML5, CSS3
Frameworks & Backend:	FastAPI, Flutter, Laravel, REST APIs, SMTP Integration
Databases & Platforms:	MySQL, Moodle LMS (Installation, Customization & Data Setup)
UI/UX & Tools:	Figma-to-Code Implementation, Git/GitHub, Selenium, Responsive Web Design
Spoken Languages:	English (Professional), Tamil (Native), Sinhala (Working)

WORK EXPERIENCE

Software Engineer – **Hashnate (Mertics Private Limited)** *2025 – 2026 (06 Months)*

Contributed to client and product engineering across enterprise contract management, ERP, finance, educational platforms, and mobile applications:

Calim360 – Contract Lifecycle Management Platform | Tools: FastAPI, Python, Responsive Web
- Designed and implemented responsive frontend interfaces for contract management workflows.
- Engineered end-to-end contract creation flows and integrated full-stack services with FastAPI backend APIs.

Panvel IQ | Tools: FastAPI, Python, Figma-to-Code, REST APIs
- Translated complex Figma design systems into pixel-perfect, responsive production code.
- Developed marketing flow content and connected backend services with FastAPI REST endpoints.

STE Site Audit – Enterprise ERP System | Tools: Web Tech, SMTP, Backend Integration
- Developed and integrated core accounting module interfaces within the enterprise ERP suite.
- Refined application UI/UX and configured production SMTP services for automated email triggers.

LPEC Finance System | Tools: FastAPI, Python, UI/UX Design
- Designed the complete user interface and architected finance tracking and transaction workflows.
- Seamlessly integrated client-side applications with FastAPI backend endpoints.

LPEC Exam System | Tools: Web Development, Workflow Architecture
- Engineered end-to-end examination workflow processes, structured data flows, and management controls.

LPEC LMS – Moodle Platform Setup | Tools: Moodle, PHP, LMS Architecture
- Installed and configured the complete Moodle LMS infrastructure from the ground up.
- Customized themes and implemented specialized operational features tailored to institutional requirements.

Ziggo – Mobile Application | Tools: Flutter, Dart, FastAPI, Python
- Developed the cross-platform mobile client with Flutter, ensuring fluid performance and UX.
- Built and integrated backend REST APIs using Python and FastAPI for real-time data communication.

Technical & Computer Assistant – **Check Life Pharmacy** *2021*
- Handled billing records, POS data entry, inventory bookkeeping, and operational computing systems.

INDEPENDENT & ACADEMIC PROJECTS

Alumni Management System – Diploma Final Year Project *2024 – 2025*
- Architected a centralized networking platform featuring role-based dashboards, profiles, and event tracking.

  Tools: PHP, Laravel, MySQL, HTML5, CSS3, JavaScript

Car Rental Management System – Desktop Application *2024*
- Built a Java desktop application managing fleet listings, customer bookings, durations, and payment calculations.

  Tools: Java, MySQL, OOP Principles

Innovations: AI Water Bottle & AI Chatbot Robot *2024*
- Awarded recognition for *AI Water Bottle* (WYSD Innovation) and co-developed an *AI Chatbot & Robot* exhibited at the National Exhibition for Inventions & Innovation.

EDUCATION

National Diploma in Information & Communication Technology (ICT) – **SLGTI** *2023 – 2025*

National Vocational Qualification (NVQ Level 4) – Web Development – **VTA** *2021*

G.C.E. Advanced Level – **AL-Aqsha National School, Kinniya** *2020*
